NEW DELHI 2 (INDIA)

The 17th December, 1951

K. MITRA.

for Registrar General, India.

# NATIONAL SAVINGS

Available in three different series, maturing after 5.7 and 12 years. The yield is 3%, 3:57% and 4:16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Re. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000/-.

### **CERTIFICATES**

Bank of India in other places transacting treasury business.

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simis.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay Calcutta. Delhi & Madras, and Branches of The Imperial

TEN-YEAR
EASURY SAVINGS
DEPOSITS

Full particulars obtainable from District Organisers of the Small Savings Scheme Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioner, Simis.

<sup>•</sup> In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not I sufficiently reliable for calculating the birth and death rates.

<sup>†</sup> Figures not available.

Explanation of symbols used:—B.-Births; B.R.-Birth Rate; C.-Cholera; S.-Smallpox; P.-Plaque; F.-Fevers; D.D. Dysentery and Diarrhoea; R.D.-Respiratory Diseases; M.D.-Maternal Deaths; D.R.-Death Rate; I.D.-Infantile Deaths (included total deaths).

#### RRMARKS

The figures of births and deaths shown in this statement for week ending the 24th Nov. 1951, relate to 198 towns with an estimated population of 27,581 thousands. The total number of towns is 256 and their population is 31,222 thousands. Thus 77% of the total number of towns representing 88% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 20,212 and 9,090 representing birth and death rates of 38.1 and 17.1 per thousand of population respectively.

(A) States (Parts A & O).—The data here relate to 174 towns with an estimated population of 24,257 thousands. Information about Assam, Bihar, and Orissa could not be included. The total number of towns is 219 and their population is 26,799 thousands. Thus 79% of the total number of towns representing 91% of the total population is covered. The numbers of births and deaths recorded in these towns were 18,474 and 8,369 representing

birth and death rates of 39.6 and 17.9 per thousand of population respectively. The table at the end gives the position by States.

Aruppukotai was the only town in Madras which recorded a high death rate of 54·1 per thousand of population and this high death rate was not due to any one of the specified Causos

(B) States (Part B).—The data here relate to 24 towns with an estimated population of 3,324 thousands. The total number of towns is 37 and their population is 4,423 thousands. Thus 65% of the total number of towns representing 75% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,738 and 721 representing birth and death rates of 27·2 and 11·3 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
